Rajesh Ranjan Sharma

Full Stack Web Developer

+919060179361 • sharmarajeshranjan2000@gmail.com • Patna, Bihar, India • LinkedIn • GitHub • Portfolio

SUMMARY

Full Stack Developer with 2+ years of experience building and deploying production-ready web applications with React.js, Next.js, Node.js, Express.js, and MongoDB. Proven expertise in REST API development, authentication systems, and performance-optimized dashboards. Skilled in creating scalable frontend architecture and pixel-perfect UI from Figma designs.

WORK EXPERIENCE

Full-stack Developer & Mentor   Oct '25 — Present
CodingGita   Ahmedabad, Gujrat
- Developed full-stack projects with students, focusing on REST APIs, authentication and MongoDB-based data modeling.
- Mentored learners in building scalable applications by applying clean architecture and real-world development workflows.

Frontend Developer   Jul '25 — Oct '25
Moolya Testing   Bengaluru, Karnataka
- Built core UI features from Figma designs using Next.js, PrimeReact and SCSS ensuring pixel-perfect implementation.
- Integrated API handling with React Query and form workflows using react-hook-form with reusable localized components via i18next.

Frontend Developer   Jul '24 — Jun '25
EquateMe   Gurugram, Haryana
- Developed and maintained responsive dashboard UI components using React.js enhancing performance and user experience.
- Built sports facility booking modules with calendar functionality and seamless REST API integration for dynamic rendering.

Full Stack Web Developer   Nov '23 — May '24
Prompt Personnel   Mumbai, Maharashtra (Remote)
- Designed and implemented user interfaces for profile and group modules using React Native improving navigation and usability.
- Collaborated with backend developers to ensure smooth data flow and seamless server integration.

EDUCATION

Full Stack Web Development, Masai School   Apr '22 — May '23
                                                               Bengaluru, Karnataka

Bachelor of Science (B.Sc.), Magadh University   Jun '17 — Dec '20
                                                               Bodh Gaya, Bihar

PROJECTS

Expedia Clone – Travel Booking Web Application Link
- **Github - Link**
- Built a responsive Expedia-inspired travel booking platform with flight, hotel, and package exploration features.
- Implemented secure authentication, profile management, and interactive booking workflows for seamless UX.
- **Features:** Authentication | Profile Section | Package Deals | Activity Planner
- **Tech Stack:** React.js | Redux | JavaScript | HTML | CSS

LENS Corporation Clone Link
- **Github - Link**
- Developed a fully responsive modern web interface using React and Tailwind CSS with reusable UI components.
- Added Dark/Light mode toggle and optimized navigation flow for better accessibility across devices.
- **Features:** Responsive UI | Dark/Light Mode | Modern Layout
- **Tech Stack:** React.js | Tailwind CSS | JavaScript | HTML | CSS

SKILLS

Technical Skills - HTML, CSS, JavaScript, TypeScript, React.js, Next.js, React Native, Node.js, Express.js, MongoDB
